

Officina BOCEDI S.r.l. is an Italian company that draws and builds end-of-line packing machinery for industrial production.

Our RANGE of machines:

- a. Stretch hooder working with tubular reel film (stretch hood)
- b. Hooding machine working with shrink tubular reel film
- c. Tunnel shrink oven
- d. Ring shrink oven
- e. Combined shrinking and hooding machine
- f. Strapping machine
- g. Conveyors and stocking pallet systems.

## *Stretch hood technology Bocedi*

Stretch Hood machine Bocedi works with reels of tubular stretch hood film and can carry more than six reels in automatic cycle in order to cover several pallet sizes at the same time.

The stretch hood system is suitable for every kind of load on pallet as it does not use any kind of heating such as gas, open flames etc.

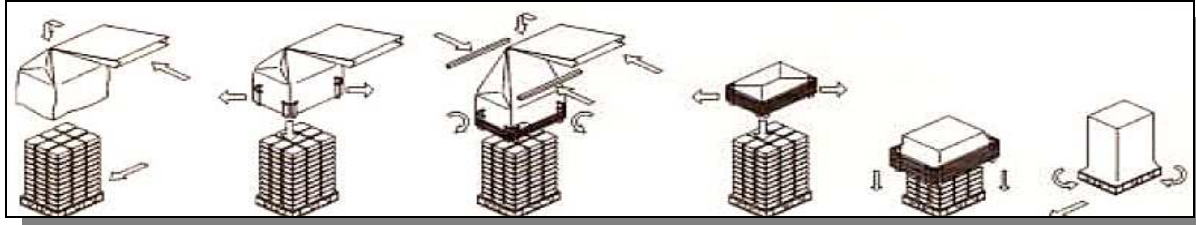

The Stretch Hood is the cohesion of both advantages from shrinking packaging and traditional stretch wrapping packaging. Actually, it brings the necessary stability to loads on pallet, the protection against atmospheric agents (rain, dust, etc.) and represents a very simple and minimized wrapping process.

According to the kind of pallet and to the capacity required, the stretch hood application offers different technical hooding solutions.

**Ref.: Detail of our STRETCH HOODER**

## Operational sequences :

Placement of the film on the upper part of the machine

Grippers in position inside tubular stretch hood film

Winding, sealing and cutting the stretch hood film.

Longitudinal and trasversal film stretching

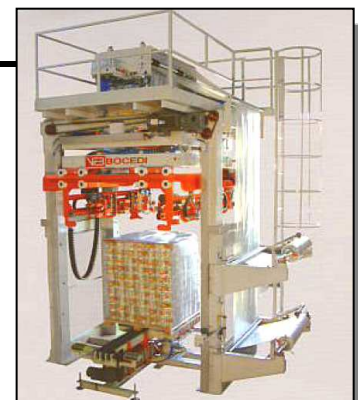

Vertical film stretching

Film released under the pallet

## Stretch hood system advantages:

- ✓Capacity more than **250 pallets/hour**
- ✓Great stability of the load on pallet
- ✓**Extreme resistance**
- ✓Possibility to work with **europallet, 1/2 pallet and 1/4 pallet and more..**
- ✓**Possibility to work with macro perforated film** (to avoid condensation)
- ✓**No need of glues for film**
- ✓**Possibility to use printed film**
- ✓Great **transparency of the image of the palletized product.**
- ✓**Waterproof and dustproof**
